Summary

Reviewed project goals and purpose of outreach advisory group. Debriefed on the recent engagement activities to confirm neighbors priorities and make sure we haven't missed anything. Reviewed the strategies we used for getting the word out and receiving input. Discussed next steps and date for next meeting.

Reactions to Proposed Next Steps

- Should we just extend the outreach period?
- Could we attend an upcoming event on 7/17 with space for upcoming projects in the community? *The project team will coordinate attending this event with the survey.*
- Have we reached out to the businesses on Tremont Street? *The project team did deliver flyers to the businesses on Tremont Street. We will be sure to stop by again in the subsequent rounds of outreach.*
- We are welcome to keep the survey box out at Camden/Lenox for longer.
- The neighborhood churches haven't been in-person and might not be back until September. For that reason, the word may not have gotten out as well as it might have. Could we work with them to find good ways to share the survey? *Absolutely. The project team will be in touch to see what materials are needed to reach the audiences that attend churches in the neighborhood.*
- Extending the outreach period through July makes sense.
- Meeting again on September 23th
